Pembroke Regional Hospital is a 203 bed level C Teaching Hospital affiliated with the University of Ottawa, Faculty of Medicine. PRH is an advanced facility with a major

expansion completed in 2005 which included a new Diagnostic Imaging Department with CT and Nuclear Medicine, Regional Rehabilitation Unit with inpatient rooms, a new ICU, expanded Emergency, Acute Mental Health Unit and expanded Medical program. The facility's most recent additions include a satellite dialysis unit, 5 new birthing suites as part of an upgraded obstetrics floor and upgraded endoscope suites on the surgical unit. Pembroke Regional Hospital has a local catchment area of

55 000 and the referral area is 100000.

*"Obstetrics and Gynecology in Pembroke is very busy and satisfying. You will have an opportunity to do as much as you wish and have both technical and financial support from the recently expanded Pembroke Regional Hospital. This area is quiet and ideal for raising a family. Schools are excellent and my children have benefited from the superb educational opportunities available as well as the many sport and outdoor activities offered. Community support and appreciation have been great. Pembroke is close to several bigger cities. If you want a busy Ob/Gyn practice, enjoy your work, enjoy winter and summer sporting activities, and want to raise your children in a quiet environment... Pembroke is for you!!!" – Dr. Lawrence Onochie, FRCSC*
